SUMNER COUNTY *DISCLAIMER* LAND DISTURBANCE PERMIT

A Disclaimer is required by TDEC when the property listed below will not be disturbing one (1) acre or more of land for this project and said property is not part of a larger common plan, development or a platted lot of record.

I/We understand that regardless of the size of the parcel or degree of disturbance, the discharge of sediment beyond the site boundaries, or into creeks or streams is prohibited.

To avoid disturbed soil from eroding into waterways and being tracked onto roadways,

I agree to:

1. Install a construction entrance with a minimum of 6 inches deep of gravel, between 1½ -3½ inches in diameter, a geo-textile underlayment, minimum of 50 ft. in length, and 12 ft. wide.
2. Install a silt fence where needed that is trenched 4”-6” into the ground and backfilled.
